**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I believe in an open competitive market and I want this to be available to my Internet service provider in the future. I support broad band competition. Without broad band competition prices will rise and the consumer voice and ability to vote with their pocketbook is lost. This is a fundamental back bone principle of capitalism competition is critical to the integrity of the market. Please support broad band competition and actively advocate for it in your position.

Thank you very much,

Kallie Kull
